The 2017 ZCON HPDE is being held at Harris Hill Raceway (H2R) in San Marcos, TX. A short 30 minute drive from the convention hotel, Harris Hill offers a fun-filled and challenging road course for all levels of drivers. Billed as "your own rollercoaster", the track is easy enough for the novice driver to learn how to drive their car on a road course, but also offers challenges to the driver ready to start pushing the limit of their skills in a safe environment.

The track is a 1.82-mile, 11 turn asphalt course. The 36 foot wide track has over 150 feet of elevation change, including the 80-foot rise and drop of Turn 4, named Santa Rita (after the patron saint of the impossible task). There is a bit of everything included in the course, including increasing and decreasing radius turns, positive and negative camber (including both within the same corner), a long sweeper, and several blind corners. There is plenty of run-off and no walls, if you need the extra space!

The 6,000 square foot clubhouse offers a respite from the heat, and the porches overlooking the track enjoy the breeze that almost always is present.

Lunch will be available for separate purchase at registration. You are also free to bring a picnic lunch and snacks if you prefer.

There will be a group photo opportunity on the track following the conclusion of the HPDE event. All Z-cars are welcome to participate in the group photo.
